

Isabel Cruz

Deputy of Technical Director

Instituto Hidrográfico

<http://www.hidrografico.pt>

Bilateral Meetings

- 10:00 h - 13:00 h

Description

The Instituto Hidrográfico (IHPT) is a State Laboratory which supports and promotes activities related to science and technological knowledge on the marine environment, particularly in the areas of safety of navigation, hydrography, oceanography, marine geology, chemistry and marine pollution, geographic information systems and environmental data management. The IHPT is involved in numerous R&D projects in areas as diverse as ocean circulation, marine geology, oceanic environment and sedimentary evolution, coastal and estuarine dynamics, underwater acoustics or internal waves.
